## Summary

---

Seeking a challenging position as a Full Stack Web Developer where I can utilize my strong foundation in Computer Science and hands-on experience gained through the 4-Month **MEARN Track at ITI**. Passionate about building scalable web applications using modern technologies, continuously enhancing my technical skills, and contributing to the growth and success of a reputable organization.

## Internship

---

### Information Technology Institute (ITI)

July 2025 – Present

*Full Stack Web Development Intern (MEARN Track)*

*Qina, Egypt*

- Undergoing intensive 4-month training focused on the MEARN stack (MongoDB, Express.js, Angular/React, Node.js).
- Gaining hands-on experience building full-stack web applications using modern technologies and agile development practices.
- Collaborating with peers on team-based projects simulating real-world software development environments.
- Enhancing problem-solving, debugging, and version control skills using Git and GitHub.

## Education

---

### Bachelor in Computer Science

oct. 2020 – July 2024

*South Valley Univesety*

*Qina, Egypt*

## Projects

---

### Herfa - Freelance Platform | *Node.js, Express.js, Angular, React.js, MongoDB*

nov 2025 - Present

- Developed a comprehensive freelance platform with separate interfaces for users and administrators, enabling seamless job posting, proposal submission, and contract management.
- Built a robust RESTful API backend using Node.js and Express.js with JWT authentication, role-based authorization, and MongoDB for data persistence.
- Created a responsive user-facing website using React.js
- Implemented an enterprise-grade admin dashboard using Angular with dynamic component loading, comprehensive analytics, and full CRUD operations for managing users, jobs, contracts, and platform statistics.
- Integrated real-time notifications, file upload handling, and advanced search/filtering capabilities across the platform.

### Healthcare Management System | *Angular 17, Bootstrap, Angular Material, RxJS, Observables*

2024

- Developed a comprehensive healthcare management web application designed to streamline operations for clinics, pharmacies, medical analysis labs, and hospitals.
- Implemented modules for viewing clinic details, managing reservations, and dynamically displaying departments based on user selections.

## Technical Skills

---

**Front-End:** Knowledgeable in Angular, React, TypeScript, JavaScript, HTML5, CSS3, building responsive and accessible UIs.

**Back-End:** Experience with Node.js, Express.js, RESTful APIs, MVC architecture, and clean code practices.

**Databases:** Hands-on experience with MongoDB and MS SQL Server for data modeling and CRUD operations.

**Tools:** Proficient with VS Code, Git, GitHub, Postman, and modern development workflows.

**Other Skills:** OOP, Agile methodologies, quick learner, strong problem-solving and troubleshooting abilities.

## Leadership / Extracurricular

---

### Information Technology Institute (ITI)

July 2025 – Present

*Team Project Leader*

*Qina, Egypt*

- Led a small development team in building a full-stack web application as part of the MEARN training program, ensuring timely delivery and code quality.
- Coordinated task assignments, managed Git workflow, and conducted peer reviews to maintain clean and consistent project structure.
- Encouraged collaboration and knowledge sharing within the team, helping members strengthen their technical and problem-solving skills.
